- K2 Vital® is a microencapsulated MK-7 material that is soy-free, significantly more stable than competing MK-7 materials, and environmentally resistant against heat, moisture, light and acidity
- K2 and D3 provided in combination for optimal cardiovascular and bone health

K2·D3 Matrix softgels are designed for optimal delivery of vitamins K2 and D3 into the body. Together, these vitamins work synergistically to support heart health, bone health, immune function and more. Vitamin K2 is a nutrient that is now well-known to be crucial for the proper distribution of calcium into the skeletal system and away from the cardiovascular system. It does this through its ability to activate two proteins, osteocalcin and matrix-GLA protein, thereby shunting calcium in the proper direction.

Vitamin D3, also known as cholecalciferol, is the preferred form of vitamin D for optimal bioavailability and function within the body. Classically, vitamin D3 is known for its ability to up-regulate calcium absorption from the gut. However, research has discovered that it is imperative for countless actions within the body and it is needed for proper immune function, mood health,

cardiovascular function, skin health and proper gene expression. In fact, many experts now refer to vitamin D3 as a hormone because of these many actions and its ability to actually modify genes within the body.

Each softgel in Cyto·Matrix's K2·D3 Matrix features 120mcg of vitamin K2 in its most active MK-7 form, as well as 1000 IU of vitamin D3. Vitamin K2 is found as K2 Vital®, the patented non-soy derived MK-7 that is microencapsulated with a starch bilayer for superior protection and stability. K2·D3 softgels contain a medium chain triglyceride oil base sourced from organic coconut oil to encourage optimal absorption and bioavailability.

Each softgel contains

Vitamin K2 120mcg
(menaquinone-7, K2VITAL®)*

Vitamin D3 1000IU (25mcg)
(cholecalciferol)

K2VITAL *K2VITAL® is a registered trademark of Balchem Corporation or its subsidiaries.

Non-Medicinal Ingredients

Coconut oil, gelatin, glycerin, purified water.

Recommended Use Claim

Helps in the development and maintenance of bones. Helps in the development and maintenance of teeth. Helps in the absorption and use of calcium.

Directions of Use

Adults (19 years and older) - Take 1 softgel per day.

Cautions and Warnings

Ask a healthcare professional prior to use • if you are taking blood thinners. Keep out of reach of children.

Storage Conditions

Do not use if safety seal is broken. Organic coconut oil melts between 23 and 27°C. It is normal if the contents of the softgel appear to be solid white or a golden liquid.
