

Omega·Boost EPA + DHA - Key Lime

900mg of EPA + 600mg of DHA, in their native triglyceride forms, with 1000IU vitamin D3 in each TBSP. Available in three delicious flavours (peach mango, key lime and tangerine) for improved patient compliance in both children and adults.

Gluten Free

Soy Free

Dairy Free

Sugar Free

- Each TBSP delivers a minimum of 900mg EPA and 600mg DHA, sourced from sardine and mackerel, in their highly bioavailable and native triglyceride form
- 1000 IU of vitamin D3 per TBSP added for foundational immune, bone and cognitive support
- Sourced from wild North Atlantic sardines and mackerel, with added alpha-tocopherol for antioxidant protection and improved stability
- Molecularly distilled to ensure the end product is free from heavy metals, organophosphate compounds and unwanted contaminants.
- Indicated for general wellness and systemic inflammatory conditions such as circulatory issues, rheumatoid arthritis, cognitive decline, mood imbalances, eczema and atopic concerns
- Naturally sweetened with glycerin and available in three refreshing flavours: key lime, tangerine or peach mango
- Each 450mL bottle provides 30 servings

Researchers have spent decades and completed countless studies to explore the mechanisms responsible for the health benefits of omega-3 fatty acids. It is widely believed that two specific compounds, eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA), can be credited with the extensive benefits of fish oil supplementation. EPA is imperative for its role in curbing inflammation, while DHA is most crucial for neurological development and nerve function. Quite simply, many of our tissues rely on these fatty acids for proper synthesis and communication.

Few people challenge the notion that EPA and DHA have widespread health benefits. The issue that arises tends to be poor compliance. Many supplements require a great number of capsules, contain a 'fishy' aftertaste or simply offer an undesirable taste or texture. Cyto·Matrix's Omega Boost solves this problem by providing a delicious and smooth blend of 900mg of EPA and 600mg of DHA in each tablespoon. These omega-3 fatty acids are provided in their highly bioavailable and native triglyceride form to optimize absorption even in those with poor digestive function.

Omega Boost meets the highest quality standards and is designed for optimal stability, potency and purity. To achieve this high standard, Omega Boost is molecularly distilled, without the use of chemicals or solvents, to safely remove harmful compounds such as heavy metals and organophosphate compounds. Additionally, each tablespoon contains 1000 IU of vitamin D3 for foundational immune, bone and cognitive support.

Delivered in squeeze-friendly PET bottles to allow for easy-to-use delivery in both children and adults, each Omega Boost bottle contains 30 servings and is available in three refreshing flavours: key lime, tangerine or peach mango.

Each 15ml tablespoon contains

Fish oil	2309.5mg
(from sardines, mackerels)	
Omega-3 fatty acids	1500mg
EPA	900mg
(eicosapentaenoic acid)	
DHA	600mg
(docosahexaenoic acid)	
Vitamin D	1000IU (25mcg)
(cholecalciferol)	
Vitamin E	9IU (6mg AT)
(d-alpha tocopherol)	

Non-Medicinal Ingredients

Purified water, vanilla, natural flavour, glycerin, potassium bicarbonate, acacia gum, citric acid, oleic acid, turmeric, sucrose.

Recommended Use Claim

Source of omega-3 fatty acids for the maintenance of good health and to support cognitive health and brain function. Helps support healthy development of brain, eyes and nerves in children up to 12 years of age.

Directions of Use

Ages 1 and older: Take 1 tablespoon per day or as directed by a healthcare professional. Shake before use. Keep refrigerated.

Cautions and Warnings

Do not use if safety seal is broken.
